Four Bee! Trust Managers and Salesmen Suddenly Depart-Packers Say Employes Are Only Taking Vacations.

REPUBLIC SPECIAL.

Chicago, March 16 .- "Vacation trips" was the euphemistic term applied by managers of packing concerns to-day to the precipitate flitting to Europe of four of the 250 witnesses who were expected to shed light on the inner mechanism of the Beef Trust. The special Federal Grand Jury was im-

paneled by Judge Kohisaat Monday to start the inquiry into the methods of the packers. Only six subpoense remain unserved. Four of the men on whom service was not obtained took boat from St. Johns, New Brunswick, this week and are now far out on the bounding main. "They are not evading anything," the

managers say. "They are on vacations."

The news of the exodus was followed by activity on the part of the Government officials to-day, and it was found that the four fugitives could not be extradited. Still, United States District Attorney Bethea will not suffer any lack of testimony, as 246 witnesses remain.

The packers were disposed to treat the disappearance of the four witnesses lightly. Manager Goorge I. Miller of the National Packing Company explained the absence of two of the high-salaried employes of that concern. managers say. "They are on vacations."

sence of two of the high-mainried employes of that concern.

"W. A. Allen has gone on a vacation trip with his family," he said. "No subpoens had been served on him. F. A. Spink is our traffic manager, and in the discharge of his duties travels extensively. He goes to Europe several times a year, and this is only one of his business visits." The other two men who are on the tillows are James Brennan, department manager for Swift & Co., and C. D. built through Morthern Hilmete and which is designed as an outer belt road from Indiana to Hilmesota append Chionge to the South, is attracting much attention. It will extend from Monamos on the Chicago and Eastern Hilmets through Aurora. Kirkland, Rockford and possibly to some point in Wisconsia and Minnesota.

The new read crosses eighteen other lives and will be valuable for switching purposes. The Illinois Central is crossed at Peotone; the Wabash, east of Joliet; the Michigan Central, Aiton, Santa Fe. Rock Island and E. J. & E. at Joliet. At Aurora the new road crosses the tracks of the Burlington; the Great Western at both De Kaib and near Clare, the Milwaukee main line at Kirkland, and at Rockford, the northern line of the Milwaukee, the morthern line of the Milwaukee, the morthern line of the Burlington, the Galena and Kanosha divisions of the Northwestern.

The road will not cater to passenger business, but will be primarrily a freight and switching line, similar to the Chicago Terminal; the Chicago Belt and the Three Eye. Preight will avoid the congestion and deiny that sometimes results in going through Chicago, and the new road will be a detouring line between the east and west, which it is hoped will save delay.

The lecturer said that the doctrine of the person of Christ consists of four factors, riest, the humanity of Christ, secondly, the divinity of Christ; third, the distinc-tion of the two natures, and fourth, the tion of the two natures, and fourth, the union of these natures in one person.
Under the head of the divinity of Christ, Poctor Patton called attention to the fact that the main discussion turned on the divinity of Christ, and the leading arguments for the divinity of Christ were presented, among them being the argument based on the Messianic idea in the Old Testament, the conversion of the Apostle Paul, and the resurrection of Christ.
